<b>Ratings: All AHRI ratings are available at AHRIDirectory.org</b>	<b>Warranty: 10-year Registered Warranty</b>

## Low GWP Compliant R-454B Single Zone Ductless Systems

We are pleased to announce the release our new line up of Single Zone R-454B ductless systems. The new offering is all about simplicity and performance. We have improved efficiencies across the board and have reduced our SKU count to reduce complexity. Notable talking points about these new products include:

1. New low Global Warming Potential R-454B Refrigerant.
2. Both 19 and 23 SEER2 systems use a common universal indoor head.
3. Wireless controller ships with the Indoor head.
4. Energy Star and Rebates qualifying models available.
5. Wi-Fi enabled

Please refer to page 2 to see the models impacted.

# Single Zone R-454B Ductless Systems

M5THS1936A11NA	M5MHW1936A1N0A	R-454B	36000	9	19	9	No

We will have similar sizes as the R-410A product but we will be adding a 3-ton single zone system in the 19 SEER2 line up. These are really strong specifications for our lower priced Ductless line. We expect to have R-454B single zone products available in February.
